Our story

We've got your safety covered.

For absolute protection and performance, you need the very best equipment you can rely on to ensure your safety. By combining our innovative ergonomic designs with ground-breaking performance materials, we aim to provide you with the winning formula. Our leisure brochure offers a complete product collection for those essential items of safety equipment, allowing you to enjoy the pleasures of being out on the water.

PROVIDING CRITICAL SAFETY SOLUTIONS

Survitec is recognized as the most comprehensive global total solutions provider for mission critical safety and survival equipment. With a history dating back over 160 years, Survitec commands market leading positions worldwide in marine, off shore, defence & aviation survival technology.

As innovators with a passion for developing new products and services to meet the changing demands of our customers, we pride ourselves on delivering great service.

Although our business interests span many countries and markets, our people share a common mission... your safety.

As part of Survitec, the Crewsaver team are experts at discretely combining safety with practicality and style.

Crewsaver®

Crewsaver[®]
60TH ANNIVERSARY

60 years of pioneering lifejacket technology

Time to celebrate! Having first launched to the market in 1957, we are celebrating more than 60 years of pioneering lifejacket technology!

We design and manufacture bespoke safety equipment for several countries' Special Forces, and the aviation and oil industries. We are the only company to hold an exclusive contract to supply lifejackets to the UK government's Environment Agency and the Royal National Lifeboat Institution (RNLI).

Survitec is recognized as the most comprehensive global total solutions provider or mission critical safety and survival equipment. With a history dating back over 160 years, Survitec commands market-leading positions worldwide in marine, offshore, defense & aviation survival technology. As innovators with a passion for developing new products and services to meet the changing demands of our customers, we pride ourselves on delivering great service. Although our business interests span many countries and markets, our people share a common mission... your survival.

Crewsaver, a part of Survitec are the leading lifejacket manufacture for the marine, offshore and defense commercial markets.

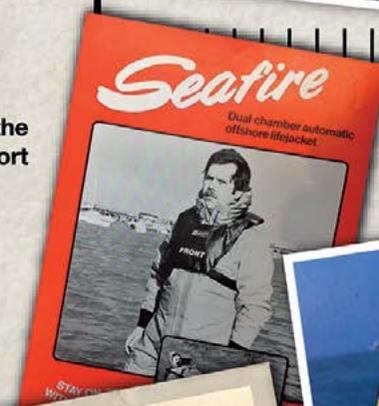

1973
Crewsaver finds larger premises to house new business.

1980: Crewsaver pioneers the design of new gas operated air-only lifejackets, which delivered many more feature-benefits as well as increasing overall safety for the user.

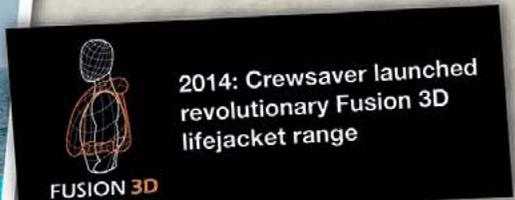

CREWSAVER 1957

The Crewsaver brand is first incorporated under the name 'Crewsaver Marine Equipment Ltd' in Gosport on the South coast of England.

1968: Crewsaver begins to expand quickly and develops a specialist knowledge in safety products, creating unique styles tailored to specific sectors of the sailing community.

Survitec Group launch a brand new range of Crewsaver commercial lifejackets including the brand new modular designed Crewfit XD

1996: CE approval standard is introduced, with new legislation and approvals to adhere to. Changes were made to design and function of lifejackets to ensure all products exceeded new standards.

2018

2017: Artemis Racing appoints Crewsaver as safety supplier for 35th America's Cup leading to the design of two revolutionary new high performance buoyancy aids

2007

With products being sold in over 40 countries, Crewsaver celebrates its 50th anniversary as a market leader in the marine safety sector.

2011: Survitec Group Limited, one of the global leaders in safety and survival equipment, acquires the Marine Division of Cosalt plc, including the Crewsaver®, Yak® and CSR® brands.

1980's: The Crewfit range effectively established as a worldwide benchmark for the design and function of lifejackets for the leisure user.

WHY CHOOSE CREWSAVER?

Crewsaver is recognized as a world leading designer and manufacturer of lifejackets and marine safety equipment.

Expert Design

Crewsaver's expert designers work closely with the most experienced lifeboat crews, as well as elite round-the-world racers who are used to pushing their limits within the extreme wind and wave conditions of the Southern Ocean.

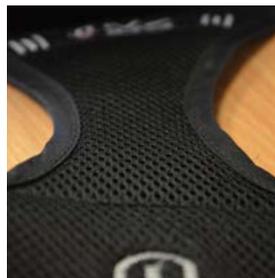

With their unique insight we are able, step by step, to refine every aspect of our lifejackets' design and construction.

We feed these innovations directly into each of our lifejacket ranges, whether for commercial or leisure use, ensuring that whatever your reason for being afloat, your safety is never compromised.

Materials and Fabrics

Whether you seek comfort, functionality, approval, reliability, longevity or strength, we have a Crewsaver lifejacket to suit you.

Our design team carefully chooses the best and most appropriate materials for each product, ensuring the ultimate in comfort and longevity for the individual environment. We then combine our in depth know-how with the latest technology to construct quality products which offer you the best possible performance.

Inflation Mechanisms

Crewsaver works tirelessly with the world's leading inflation mechanism manufacturers to ensure that all the units we use offer the best possible performance within each individual lifejacket design.

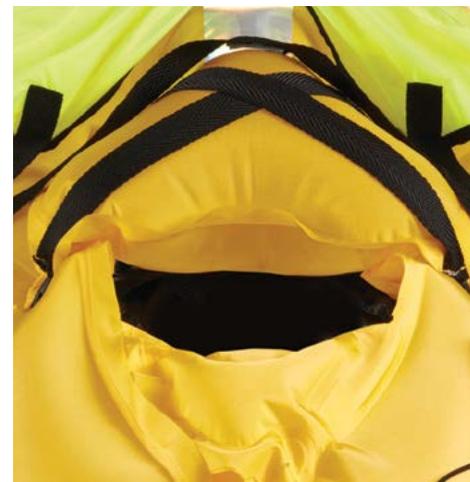

In addition we are proud to introduce the new UML Pro Sensor Elite inflation mechanism. Being 13mm shorter and 4 grams lighter than the original Pro Sensor Automatic mechanism, the Elite range also benefits from a more rounded design and improved manual lever retention. As with the UML MK5 Inflator the great benefit of this inflation system is the functionality of the automatic override which under normal operating conditions activates within 3 seconds of the system being submerged in water.

Bladder Technology

Our design philosophy begins with approval standards. To do this, we add the Crewsaver difference brought about by our complete understanding of both daily life and emergency survival in extreme marine environments.

All of our products are designed, tried and tested with real life situations in mind, allowing you to rely on them completely.

For example, all of our lifejacket bladders are designed ergonomically for every day use but without compromise for your survival in the very worst scenarios. In normal conditions, the 3D sculptured shaping gives you maximum comfort and our sculpted sides allow you to move freely and without hindrance. However should an emergency arise and you find yourself in the water, you'll find our unique designs inflate quickly and reliably. They have buoyancy distribution to keep your mouth well above the water, known as mouth freeboard, and top-of-the-range turning properties to safely float you on your back. Our inflatable chin support will also help to keep your airways clear.

Why Choose Crewsaver?

Are you **#LifejacketSafe**

“I’m not planning on falling in...”

It’s something that we have all heard before and we may even be guilty of thinking it ourselves. However...

“Accidents can happen at any time in any weather. Good training and common-sense help, but lives could be saved every year if people wore correctly-fitted, well maintained lifejackets or buoyancy aids.”

- Maritime and Coastguard Agency

The **#LifejacketSafe** campaign aims to increase safety awareness by highlighting the importance of not only wearing a personal flotation device, but also making sure it is worn correctly and is well maintained.

So, if the worst should happen, you are well equipped and can rest assured that your safety equipment is not going to let you down.

Do you...

- ✓ Ensure your lifejacket is in a good and serviceable condition?
- ✓ Wear a lifejacket and wear it correctly?
- ✓ Wear the right lifejacket for your activity?
- ✓ Follow care and maintenance guidelines?

For more information about how you can stay **#LifejacketSafe**, visit the **#LifejacketSafe** section on the Crewsaver website.

Is your lifejacket in good and serviceable condition?

For those who have bought a lifejacket and #WearIt, we say 'congratulations'! You have taken the first step in increasing your chances of survival in an in-water emergency. **HOWEVER**, did you know your lifejacket, just like your car, needs to be regularly maintained and serviced?

A lifejacket is an essential piece of safety equipment. Federal Regulations require Coast Guard approved Personal Flotation Devices (PFDs), including lifejackets, to be;

- ✓ Legibly marked with the Coast Guard approval number
- ✓ In good and serviceable condition
- ✓ The correct size for each person on board

It is the responsibility of the operator to ensure their lifejackets are in serviceable condition. To be considered serviceable, lifejackets should not exhibit deterioration that could diminish its performance, such as broken or deformed hardware, detached webbing, rotted structural components, (and for inflatable lifejackets) air leaks or non-functional inflators. Inflatable lifejackets must also be properly armed with a cylinder installed in the inflator. Failure to follow these instructions rigorously could result in a non-functioning lifejacket causing injury or death.

Key checks to ensure your lifejacket meets the 'serviceable condition' requirements

- ✓ Regularly check the firing mechanism is in good working order and that all components are securely tightened, in-date and ready for action
- ✓ Ensure manual toggle (found on all gas inflatable lifejackets) is accessible
- ✓ Periodically check all fabrics, webbings and buckles for signs of fatigue or damage
- ✓ Periodically leak test the lifejacket's bladder and oral inflation valve

It is important to follow manufacturer's guidelines for all care and maintenance requirements. For Crewsaver lifejackets please refer to the Owner's Manual which is included with all lifejacket purchases.

TOP TIP: If you are not confident in the self-inspection and servicing of your Crewsaver inflatable lifejacket in accordance with the owner manual instructions, take your lifejacket to your local approved Crewsaver dealer.

Put the life back in your jacket.

Register your Crewsaver lifejacket or liferaft to receive your free servicing reminder.

Why Register?

- ✓ We will send you lifejacket check-up reminders
- ✓ Your product details will be held on our system. This will be very useful if you ever need to contact us with an enquiry or if your lifejacket or liferaft is found
- ✓ Receive #LifejacketSafe safety tips

Registering your lifejacket or liferaft is easy!

Simply register at: www.crewsaver.com/us/product-registration

Would you trust your life in the hands of this lifejacket?

Don't take the risk.

Look after your safety equipment so it can look after you.

Crewsaver

Are you #LifejacketSafe

THE NEXT LEVEL IN LIFEJACKET DESIGN

A large percentage of the boating world still do not wear lifejackets. As a manufacturer of integral safety equipment the challenge for Crewsaver has been to reduce this number through the design of comfortable and stylish lifejackets, while increasing the key safety features for vital in water performance.

No matter your circumstances, be sure to choose your lifejacket carefully. Whether you are selecting for yourself, your family, your crew or your colleagues, you should consider worst case scenarios and the type of lifejackets everyone should be wearing for their ultimate safety overboard. The Fusion 3D collection consisting of ErgoFit+, ErgoFit and Crewfit lifejackets mean that whatever your level or activity - there is a Crewsaver to suit.

Fusion 3D The Crewsaver lifejacket range encompasses the most innovative Fusion 3D technology, providing users at every price point with the most advanced comfort solutions available to date. The range moulds to the shape of your body and sits off of your neck giving the user total freedom of movement – so comfortable you will forget you are wearing it.

FUSION 3D

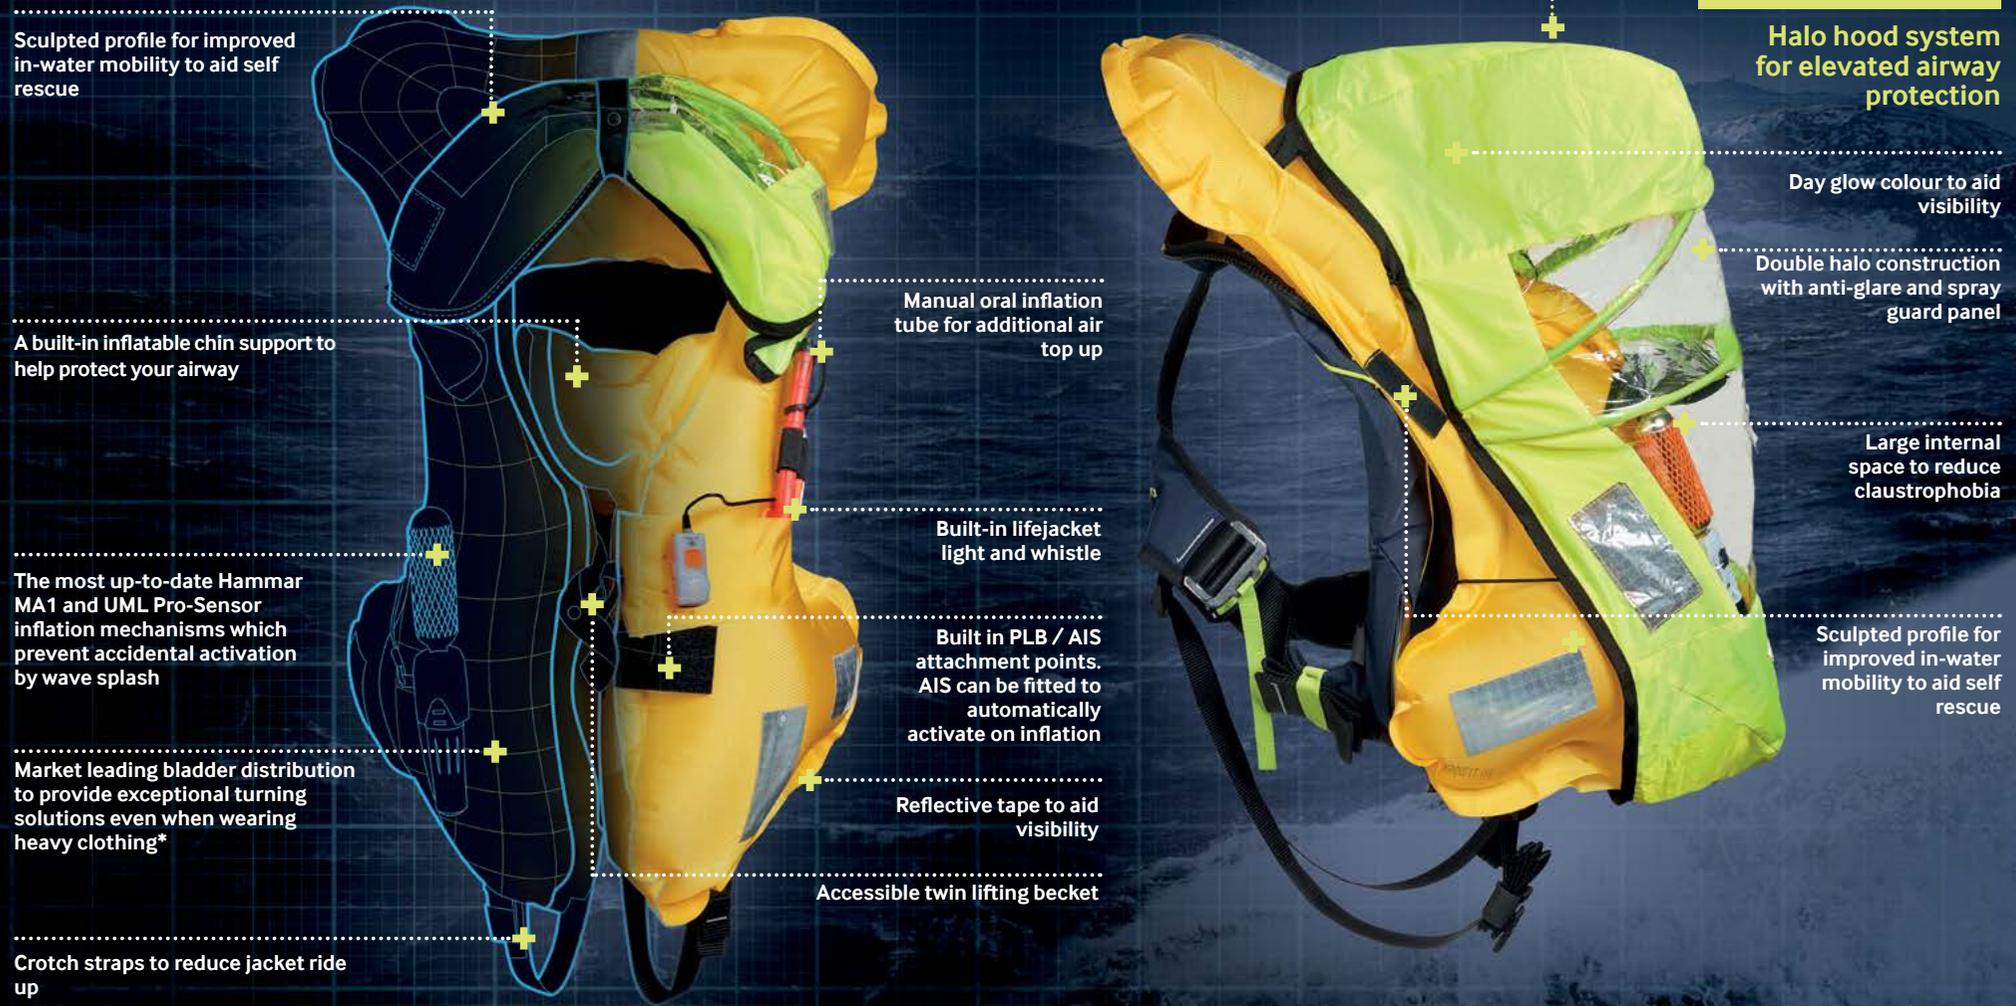

Halo hood system It has been proven that the addition of a spray hood inside a lifejacket can significantly enhance the wearer's safety. It increases visibility, retains heat and protects the airway by reducing the risk of secondary drowning. The ErgoFit+ features the halo hood system - an industry first designed for elevated airway protection. This is achieved through improved bladder and spray hood compatibility, and a new double halo construction. As a result, the spray hood is fully self-supporting once deployed and sits significantly higher above the face.

COMFORT.
STYLE.
PERFORMANCE.

ERGOFIT+ IT'S WHAT'S INSIDE THAT COUNTS

Using our **ErgoFit+** lifejacket as an example, we demonstrate the essentials of lifejacket design complete with a guide to our very latest safety features. This will help consolidate your knowledge and allow you to identify the features you need for your own specific use. Then simply pair up the features with our comprehensive lifejacket range to select the very best model for you.

Sculpted profile for improved in-water mobility to aid self rescue

A built-in inflatable chin support to help protect your airway

The most up-to-date Hammar MA1 and UML Pro-Sensor inflation mechanisms which prevent accidental activation by wave splash

Market leading bladder distribution to provide exceptional turning solutions even when wearing heavy clothing*

Crotch straps to reduce jacket ride up

Manual oral inflation tube for additional air top up

Built-in lifejacket light and whistle

Built in PLB / AIS attachment points. AIS can be fitted to automatically activate on inflation

Reflective tape to aid visibility

Accessible twin lifting becket

INDUSTRY FIRST

Halo hood system for elevated airway protection

Day glow colour to aid visibility

Double halo construction with anti-glare and spray guard panel

Large internal space to reduce claustrophobia

Sculpted profile for improved in-water mobility to aid self rescue

*For maximum protection in severe weather conditions / when wearing heavy waterproofs / when help is far away, we recommend opting for a 275N rated lifejacket, such as the ErgoFit+ 290N

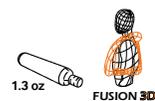

USCG APPROVED LIFEJACKETS

ErgoFit 40 PRO

Using technology from the popular ISO ErgoFit range, Crewsaver brings you the USCG approved ErgoFit 40 Pro. The ErgoFit 40 Pro incorporates the innovative Fusion 3D technology. With its intelligent cut away profile it provides total mobility, leaving you unhindered and free to move, work and perform.

- USCG Type V / II approved lifejacket (auto + harness)
- Provides 40 Lbs of buoyancy when inflated
- Three-layer cover construction for extreme durability
- Dual buckle system to enable easy donning
- Soft loop D-rings for attaching the safety harness
- Easy to adjust side waist adjusters and quick burst zip

BUOYANCY AIDS

Revolution in Buoyancy Aid Technology

A large percentage of the boating world still do not wear any kind of personal flotation device. As a manufacturer of integral safety equipment the challenge for Crewsaver has been to reduce this number through the design of comfortable and stylish buoyancy aids suitable for a multitude of watersports activities. So whether you are sailing recreationally or racing, powerboating or paddling, this range will provide the perfect buoyancy aid for you.

ErgoFit 50N EX

The Crewsaver ErgoFit 50NEX 'High Impact' buoyancy aid, a revolution in personal safety equipment, providing the most advanced safety specification a buoyancy aid has ever offered to date. Whilst also offering a low profile, maximum comfort design ensures there are no compromises for those operating in the most demanding conditions. Through the partnership with Artemis Racing, Crewsaver was able to develop this innovative buoyancy aid. Now this same technology has been made available to all sailors, giving everybody the opportunity to benefit from the same safety and performance technology as an America's Cup sailor!

- Breathable airflow technology
- Low profile sculpted design
- Dual adjustment for optimal fit
- Large slimline front pocket
- Removable hands-free Spare Air pocket
- Concealed back pocket for hydration pack
- Hydration tube exits
- Stretch-to-fit breathable side and shoulder panels
- Ergonomic curved zip
- Quick access line cutter stowage
- Available with and without Forcefield body armour protection

SERVICING

Survitec has an extensive network of service stations globally to help ensure an effective and efficient servicing process for your long term convenience and continued safety. In addition, the rafts come complete with a 12 year warranty providing they are serviced by a Crewsaver approved service station.

ISO Ocean Liferaft

Using our skills and expertise in the design and manufacture of both liferafts and lifejackets we have created the most advanced specification ISO Ocean liferaft yet. The Crewsaver ISO Ocean liferaft improves both safety and performance for you and your crew. It is approved to ISO 9650-1 standards and includes an extended three year service period. Manufactured using highly durable, long lasting Polyurethane (PU) coating helping to ensure the raft remains flexible, abrasion resistant, highly reliant, and chemically inert.

- Superb value coupled with high manufacturing quality and standards
- Easy to transport with a choice of valise or small, lightweight container with side handles
- High volume of water pockets to ensure maximum stability (4 Man - 2 x 84 L water ballast pockets. 6, 8 and 10 Man - 3 x 84 L water ballast pockets. 12 Man - 5 x 60 L water ballast pockets)
- A semi-rigid boarding ramp for quick, easy and safe boarding
- Tough polyurethane coated nylon canopy
- Simple zip closed canopy door
- Interior and exterior lifelines for extra safety in heavy seas
- External strobe light to aid night location by search and rescue teams & Internal LED light
- Rainwater catcher and collection system located on the rear of the canopy
- Lookout sleeve located on the side of the canopy
- Emergency ration packs available for under or over 24 hour rafts

Crewsaver Coastal Liferaft

Using our skills and expertise in the design and manufacture of both liferafts and lifejackets, we have created the most advanced specification Recreational Coastal Liferaft yet. This liferaft improves both safety and performance for you and your crew and comes with an extended three year service period.

- Superb value coupled with high manufacturing quality and standards
- Easy to transport with a choice of weatherproof valise or sleek, light container with side handles
- Innovative design with safety features including
- High volume of water pockets to ensure maximum stability (4 person - 2 x 84 litre water pockets. 6, 8 and 10 person - 3 x 84 litre water pockets. 12 person - 5 x 60 litre water pockets)
- A semi-rigid boarding ramp for quick, easy and safe boarding
- Tough polyurethane coated nylon canopy
- Simple zip closed canopy door
- Interior and exterior lifelines for extra safety in heavy seas
- External strobe light to aid night location by search and rescue teams
- Internal LED light
- Rainwater catcher on the rear of the canopy
- Lookout sleeve located on the side of the canopy
- Has most of the features of the ISO-Approved Recreational Liferaft, except pack and insulated floor

ISO Liferaft

The Crewsaver ISO liferaft is the ideal solution for those looking for a high quality yet affordable ISO liferaft, designed to meet ISO Type 1 standard and suitable for both commercial and recreational activity including those operating under MCA code of practice requirements. This raft is manufactured in Survitec Group's liferaft manufacturing facility in Italy who have been designing and manufacturing liferafts for both the commercial and leisure markets since 1977.

- Type A ISO 9650-1 type 1 approved
- Easy to transport with a choice of valise or small, lightweight container with side handles
- Internal and external light
- Four 63 ltr weighted water ballast pockets
- Boarding platform on the front of the raft and boarding ladder on the rear
- Bright orange top canopy which can be opened and closed from either side of the raft depending on conditions
- Rain water catcher and collection system located on the rear of the canopy
- Lookout sleeve located on the rear of the canopy
- High quality PVC orange tubes to ensure longevity and aid visibility
- 3 year service interval
- Optional extra cradle, webbing assembly and HRUs are also available

Universal Cradle

The Crewsaver Adjustable Liferaft Cradle ensures you are fully equipped with a versatile liferaft mounting solution. Supplied with 4 mounting brackets, the cradle can be deck mounted vertically, horizontally or added to the pushpit.

- Versatile solution for vertical, horizontal or pushpit mounting
- Fully adjustable frame to accommodate a variety of liferaft container shapes & sizes
- Corrosion resistant Stainless Steel 316 construction for extended product longevity & aesthetic appearance
- Nylon coated 50 mm Stainless Steel belt with latch
- Padlock hole for use when not at sea
- Easy to assemble & adjust
- Must be used with the HAMMAR HRU
- The Optional Rail Mount Kit is available for purchase for vertical mounting

Hammar H20 Standard SOLAS HRU

The Hammar H20 is a Hydrostatic Release Unit (HRU) designed to fit liferafts of all shapes and sizes. It is made of glass fibre reinforced nylon, which prevents it from corroding. The Hammar H20 needs no annual service, maintenance or spare parts. You simply install a new one every two years and dispose of the old one. With the environment in mind, the old unit is 97% recyclable.

LSHRUHM

Rescue C.A.S.E

Sometimes an approved liferaft isn't necessary for coastal or recreational boaters based on the size and use of their boat. The Crewsaver Rescue C.A.S.E. (Compact Air Survival Equipment) is a platform-style buoyancy aid ideal for in-shore and near-shore recreational boaters. This raft offers those travelling alone or in small groups, the smallest and most inexpensive 6-person rescue buoyancy aid available. It has 5 pockets for stability, multiple life-lines, and includes a ladder for boarding. This raft uses a CO₂ inflation system and comes in a lightweight, waterproof, and durable storage valise.

- Six (6) person capacity
- Compact, lightweight and economical making it well suited for coastal and recreational boaters
- Fabric is bright yellow to help aid in visual detection by rescuers
- Comes packed in a lightweight and tough 16 1/2 L x 13 W x 6 1/2 inch valise
- Weight 25 lbs
- Has five (5) 100 lbs ballast pockets along the bottom
- Includes a loading ladder instead of a stirrup to improve the speed to board
- CO₂ inflation system
- Six-sided construction
- Multiple lifelines

Smartfind G8 EPIRB

MEOSAR Compatible® for enhanced detection and location performance, the G8 range includes an industry first; a four-frequency EPIRB, combining the global alerting of 406 MHz with the localised locating and tracking power of AIS.

- Faster alert detection on the 406 MHz frequency through MEOSAR compatibility
- The world's first QUADROTECH® EPIRB, with four search and rescue frequencies, the SmartFind G8 AIS supports the Alert, Locate, Tracking and Recovery elements of search and rescue
- Greater location accuracy by receiving GNSS coordinates from a wider range of satellite constellations
- World's first convergence of 406 and AIS, combining the global alerting of 406 MHz with the localised locating and tracking power of AIS
- The only EPIRB manufacturer that also builds and supports the Cospas-Sarsat ecosystems infrastructure, making the benefits of MEOSAR a reality

10-23-001-051A	MCMURDO G8 AIS SMARTFIND - AUTO

FastFind 220

A lifesaving distress beacon with buoyancy pouch included, designed for marine enthusiasts and adventurers. The FastFind 220 is the world's first Galileo Personal Location Beacon (PLB), offering accelerated location detection with GPS and Galileo GNSS receivers.

The FastFind 220 Personal Locator Beacon (PLB) uses advanced technology packed into a simple, lightweight, palm sized unit. Using the dedicated 406 MHz frequency, FastFind 220 transmits your unique ID and precise location to the global network of search and rescue satellites.

- Floats with buoyancy pouch
- GPS & Galileo GNSS Receivers
- No subscription
- 6 year battery life
- Waterproof to 10m
- SOS morse LED flash light
- Safe-stow antenna

10-91-001-220A

Smartfind S20 AIS MOB Device

Designed to be fitted to a lifejacket the S20 Smartfind is ready to be activated in the event of a man overboard situation. Once activated the unit then transmits your position and identity via GPS back to your vessel, enabling a fast rescue.

- Automatic deployment when correctly fitted into the ErgoFit and Crewfit Pro lifejackets
- Flashing LED indicator light makes you easier to spot at night
- 24 hours continuous transmission
- 7 year battery storage life

10-98-001-002A

Smartfind S10 AIS MOB Device

The Smartfind S10 is designed to be activated in the event of a man overboard situation or other personal crew emergency. The unit transmits your position and identity via GPS back to your vessel, enabling a fast rescue.

- Flashing LED indicator light makes you easier to spot at night
- 24 hours continuous transmission
- 5 year battery storage life

10-S10

Smartfind S5 SART

Stored in a quick release carry off bag, the rugged S5 Smartfind is buoyant and waterproof to a depth of 10 m. When activated, the S5 transmits an alert message.

- High visibility
- Shoulder strap to aid carrying in emergency evacuation
- 96 hours of continuous transmission

10-92-001-001A

S4 Rescue SART

Designed to be stored in a liferaft or as a carry off device, the S4 Rescue SART is buoyant and waterproof to a depth of 10 m. When activated, it detects radar signals from other vessels or aircrafts and automatically transmits a response signal that appears on the other vessel's radar display.

- Suspend in liferaft or mount higher using the integrated extending pole
- 96 hours operation

MARKER BUOYS

As used for the 2012 Olympic Games, Crewsaver inflatables are excellent quality offering great visibility and high durability. In addition, Crewsaver also offers a branding and custom made service; special colours, shapes and sizes are all a possibility if required.

Cylindrical Buoy

Constructed with durable double skin and inner inflation chamber. Stands up tall to aid visibility on long race courses.

- Hard wearing construction
- Comes with fitted mooring harness
- Standard bright orange for high visibility

Code	Buoy	Size (inch)	Description
3810-4'	Cylindrical	4'	H4' x D2'
3810-5'	Cylindrical	5'	H5' x D2'6"
3810-6'	Cylindrical	6'	H6' x D2'6"

Dumpy Buoy

Easy to move around for forever moving race courses. Constructed with a durable double skin and inner inflation chamber.

- Hard wearing construction
- Comes with fitted mooring harness
- Standard bright orange for high visibility

Code	Buoy	Size (inch)	Description
3811-2'6	Dumpy	2'5"	H2'6" x D2'6"
3811-5'	Dumpy	6'	H6' x D3'10"

Pyramid Buoy

Constructed with a durable double skin and inner inflation chamber. The Pyramid buoy offers an alternative to the dumpy buoy.

- Hard wearing construction
- Comes with fitted mooring harness
- Standard bright orange for high visibility

Code	Buoy	Size (inch)	Description
10076	Pyramid	5'	Each edge 5'

Training Mark

This is an easy to use training mark that can be quickly and easily laid for a huge variety of training exercises. Easy to inflate by mouth on the water, it is twin-skinned for durability and comes complete with its own weight bag. Perfect for sailing schools and coaches.

- Simple training aid
- Mouth inflation
- Strap for easy recovery
- Inflatable twin skin and weight bag

Code	Buoy	Size (inch)	Description
10079	Inflatable training	6'2"	Inflatable twin skin with weight bag mark buoy 6'2" x 1'

Reinforced Training Mark

This bright orange training mark has a black stripe for high visibility and a strong PU coated nylon construction strengthened by webbing.

- High frequency welded inflator
- Includes flag pole holder and pocket for strengthening baton
- Internal 'sand' bag for maintaining vertical altitude
- Three webbing handles and strengthened webbing construction
- Can be packed flat when sand bag is empty

Code	Buoy	Size (inch)	Description
10074	Reinforced training mark	4'3"	Inflatable single skin 4'2" x 1'
10075	Insert for reinforced training mark	6'2"	Inflatable twin skin with weight bag 6'2" x 1'

Crewsaver

Atacama Pro Drysuit

Designed using 3 layer breathable technology and enhanced waterproof properties to keep you warm and dry whilst out on the water. A unique lower stretch mesh back panel adjustable braces, articulated arms and legs create a custom-fit to provide the ultimate in freedom of movement.

- 3 layer breathable fabric with enhanced waterproof properties
- Lower back stretch mesh panel for increased comfort and flexibility
- YKK Aquaseal flexible zip construction
- Articulated arms and legs for increased freedom of movement
- Cordura reinforced double layered seat and knees
- Expandable leg pockets with D-ring attachment
- Adjustable wrist and ankle cuffs
- Glideskin neoprene wrist and neck seals
- Removable braces
- Internal pocket
- Reflective detail
- Comes with free Stratum underfleece

Race Top

The Crewsaver Race Top sets the bar for breathable performance thermals. Its waterproof fabric (with a 10 K hydrostatic head) is fused with soft internal fleece lining providing the thermal protection needed to stay on the water for longer. Another benefit is the additional thermal protection offered by the foldable collar for optional face coverage. Lightweight and compact, the Crewsaver Race Top is an unmissable addition for any watersport enthusiast

- Waterproof fabric to 10 K and breathable to 5 K
- Fleece lined
- Fully taped seams
- Thermal collar with elastic adjustment
- Reflective sleeve print
- Adjustable neoprene waistband
- Adjustable PU cuffs
- Articulated arms for movement

Sizes J S M L XL

Spray Top

The Crewsaver Spray Top is the perfect solution for those seeking the next level in performance technology. The durable fabric has a hydrostatic head waterproof rating to 20 K and is breathable up to 6 K, making this one of the most advanced and affordable spray tops on the market. With uniquely tailored panels, the articulated shape of this spray top provides much sought-after unhindered freedom of movement.

- Durable waterproof fabric to 20 K and breathable to 6 K
- Fully taped seams
- Front accessible pocket with plastic zip and water drainage
- Reflective sleeve print
- Adjustable neoprene waistband
- Adjustable PU cuffs
- PU Adjustable neck seal
- Articulated arms for movement

Sizes J S M L XL

Spray Cag

So, you want to be out on the water and you want kit that works without the fripperies. Waterproof fabric with adjustable collar and cuffs, the Crewsaver Spray Cag is breath-taking simplicity at it's best.

- Elasticated waistband for versatile fit
- Adjustable PU cuffs
- Single adjustment PU collar

Sizes J S M L XL XXL

Tri-Season Glove

Neoprene construction to help keep you warm and dexterous even on the colder days. Complete with Amara leather reinforcement on the palm, fingers and thumb, the Tri-Season glove gives the protection and durability you need when on the water in tough conditions or for long periods of time.

- Neoprene and Amara construction
- Amara pull tab on wear point
- Coated Amara protection on the palm, fingers and thumb
- Amara knuckle panel for protection and durability
- Palm reinforcement for protection against rope burn

Sizes J4 J5 XS S M L XL XXL

6952

Three Finger Glove

With its neoprene construction and Amara protection, the Three Finger glove is the perfect 'multi-sport' glove. Three full fingers plus cut-offs on the thumb and forefinger combines what we're all seeking for in a glove; warmth, comfort and dexterity.

- Amara knuckle panel
- Neoprene wrist for comfort
- Printed Amara on fingers and palm for grip and long life
- Super flexible spandex for increased movement
- Knuckle panel for protection and durability
- Printed Amara reinforced forefinger
- Three full fingers, thumb and forefinger cut off for dexterity

Sizes J4 J5 XS S M L XL XXL

6951

Short Finger Glove

Designed for watersport enthusiasts of all levels, these gloves provide the wearer with the ultimate combination of dexterity and palm protection.

- Amara knuckle panel
- Neoprene wrist for comfort
- Printed Amara on fingers and palm for grip and long life
- Super flexible spandex for increased movement
- Knuckle panel for protection and durability

Sizes J4 J5 XS S M L XL XXL

6950

Zip Boot

If you prefer the additional foot protection and stability afforded by a more substantial zip-up boot over a slipper style boot, the zip boot design is the ultimate sailing footwear for you.

- 5 mm neoprene construction for warmth and durability
- Side zip with neoprene gusset for easy donning
- Reinforced toe
- Reinforced hiking and heel area protection
- Moulded high grip sole
- Neoprene gusset back up

Sizes 3 – 13

6940

Aplite Shoe

The Aplite is a superb neoprene beach shoe with a moulded high-grip sole for comfort and foot protection.

- 2.5 mm neoprene construction
- Drawstring ankle adjustment
- Moulded high grip sole

Sizes Child 10 – Adult 11

6942

3/4 Boot

When you're racing or training, hiking or trapezing, you'll want footwear that gives you support, grip, flexibility and a secure foothold around the boat.

- Ideal for hiking and trapezing
- 5 mm neoprene construction for warmth and durability
- Front entry with Velcro fastening ensures bespoke fit
- Heel, arch and toe support
- Reinforced front hiking support
- Moulded high grip sole

Sizes 4 – 13

6941

Slate Sock

Ideal for light use on their own or as an additional insulation layer in your existing boots, these neoprene pre-shaped socks provide warmth, comfort and grip.

- Glued and blind stitched neoprene construction
- 3D shaped for maximum comfort
- Anti-slip printed sole for grip

Sizes 4 – 11

6946

Granite Shoe

With a 3mm neoprene construction, the Granite Shoe is a warm slipper suited to all types of watersports.

- 3mm Neoprene construction for warmth
- Velcro front entry for easy donning
- Moulded high grip sole

Crewsaver Boots

An excellent boot for use in all types of marine environments. The specially constructed inner keeps you warm and comfortable while the razor-cut grip keeps you sure footed no matter how wet the deck.

- Drawstring and gusset*
- Excellent for launching and recovery
- Tailored marine environment sole for wet slipways, decks or paths
- Broad foot design for easy donning and removal
- Natural rubber construction for durability
- Dry Line inner for warmth and comfort
- Available in Long and short options

*On Long option

Sizes 36 – 44

4010 Long Boot

4020 Short Boot

BUILT FOR ADVENTURE

The new luggage collection is practical, stylish and tough. Featuring traditional holdalls, drybags and wet/dry hybrids, these bags are truly lifeproof.

Wet/ Dry Holdall

Smart, roomy and most importantly with well separated wet and dry compartments, the Wet/Dry Bag is the ideal watersport enthusiast kit bag.

- Removable shoulder strap
- Heavy duty polyester construction
- Full wet and dry main compartments
- Neoprene padded carry handle

Size 75 L

6960-75L

Crew Holdall

The Crew Holdall provides shore to boat practicality making it the first choice for sailors and motor boaters everywhere.

- Abrasion resistant with heavy duty wrap around base
- Semi opaque rip-stop panel for easy location of contents
- Roll top to keep contents dry
- Heavy-duty construction with reinforced base
- Carry handle and shoulder strap
- Internal slip pockets with dry compartment

Size 55 L 75 L 100 L

6961

Bute Drybag

A tough, multi-purpose dry bag ideal for carrying surface watersport gear. The semi-opaque panel that runs the length of each bag makes it easy to find what you're looking for.

- Abrasion resistant with heavy duty wrap around base
- Semi opaque rip-stop panel for easy location of contents
- Roll top to keep contents dry
- 55 L option comes with shoulder strap

Size 5L 10L 20L 55L

6962

Plasma QR Trapeze Harness

Many sailors are now opting for the reassurance provided by a harness with a built-in quick release hook.

- Versatile harness
- Adjustable lumbar support
- Spreader bar

Sizes J S/M M/L XL

3110

Crewlift 40 bosuns chair

A safe and comfortable bosun's chair is a prerequisite for when a crewman goes up the mast to check the rigging or to make essential repairs.

- Complete with an adjustable waist belt and thigh straps for a secure fit
- Detachable tool pouch and webbing tool rack to carry essentials safely and keep your hands free

11302

Centre Spray Top

- Double lined neoprene cuffs for comfort and durability
- All raw edges over locked for durability
- Reinforced hanging loop
- Taped seams

6618

Centre Trousers

- Durable adjustable braces in 40 mm polypropylene webbing
- Adjustable ankles using 50 mm wide Velcro fastening
- Reinforced hanging loop
- Taped seams

6619

Design and Fabric Technology

GLIDESKIN NEOPRENE NECK & CUFF SEALS
Non irritant, high stretch for ease of donning and extreme water resistance.

TAPED SEAMS
Added strength and water resistance.

REFLECTIVE PRINT
Reflective print for added visibility.

REFLECTIVE TAPE
Reflective tape for added visibility.

EXTREME BREATHABILITY
Body water vapour is allowed to escape for greater comfort.

INDICATOR WINDOW
To externally show status of the inflator.

UNIQUE CHIN SUPPORT
To help keep airway clear of the water.

AIS COMPATIBLE
Allows for automatic activation option on inflation.

EXCEPTIONAL TURNING SPEEDS
Even when wearing multiple layers of wet weather clothing.

3D SHAPE
For unrivalled fit

QUICK BURST ZIP
QBZ closure system fitted

FUSION 3D
To give maximum comfort and dexterity

BS EN ISO 12402-2
Approved to the latest British and European standard.

BUOYANCY CATEGORY
The level of buoyancy that defines each product and the environment they are suitable for.

CYLINDER SIZE
The size of CO2 cylinder used to inflate the lifejacket.

SPRAYHOOD
Fits over the wearer's head to reduce the amount of spray being inhaled.

LIGHT
SOLAS approved lifejacket light.

INFLATION MECHANISM OPTIONS
(M) Manual, (A) Automatic, (H) Hammar.

EN 396
Approved to British Standards.

FRONT ZIP
Quick, easy & secure closure.

ADJUSTMENT FEATURES
Various adjusters to guarantee a bespoke fit and extreme comfort.

SUPERSOFT FOAM
Soft 3D foam shaped to your body for extreme comfort.

NEOPRENE
Extremely versatile synthetic rubber, highly flexible and insulating.

ERGONOMIC DESIGN
Pre-shaped for increased flexibility and freedom of movement.

CURVED ZIP
The front zip curves around the body for freedom of movement when sailing.

MICROFLEECE LINED
Additional comfort and warmth.

100% WATERPROOF
Fully waterproof fabric with taped seams.

REINFORCED WEAR AREAS
Provides additional strengthening.

MUSCLE SUPPORT
Close fitting against the body for extra hold.

ADJUSTABLE SHOULDERS
Offer increased comfort, flexibility and an excellent fit.

NYLON/SPANDEX
Highly stretch fabric for extreme freedom of movement.

AMARA
Hard wearing reinforcement for high wear points.

QUICK LOCK BUCKLE SYSTEM
Hard wearing reinforcement for high wear points.

HALO HOOD SYSTEM
Double halo construction with anti-glare and spray guard panel

EXPOSURE OLAS COMPATIBLE
Works in conjunction with Exposure OLAS rescue systems

USCG APPROVED
Conforms to the US Coast Guard approvals
