# ATACAMA /// JUNIOR

## DRYSUIT

Inspired by the Atacama Pro drysuit, the Atacama Junior drysuit is tailored for our younger watersport enthusiasts. Constructed using 3-layer breathable technology, the junior drysuit is ideal for keeping the user warm and dry whilst on the water.

Both comfort and style have been extremely important factors in the design of the Atacama Junior. A unique lower stretch mesh back panel, adjustable braces, articulated arms and legs create a custom-fit to provide the ultimate in freedom of movement.

The front entry Aquaseal, flexible zip is positioned for maximum comfort and allows the wearer to don the suit without the need of assistance. Additionally, Cordura reinforced double layered seat and knees provides extra protection to the areas of high wear to maintain longevity.
