CARE & USE OF YOUR AQUASEAL® ZIP

This product has been designed and fitted with an AQUASEAL® Zip. For correct use and to prolong the life of the product, please follow the simple instructions overleaf.

1.

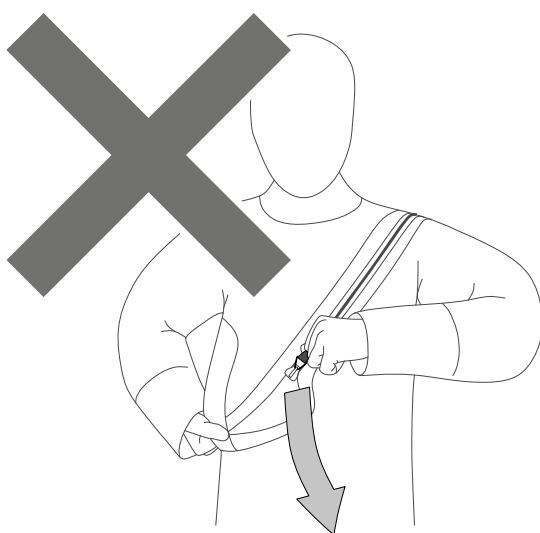

Brace the top of the drysuit directly above the AQUASEAL® Zip. Take hold of the zipper toggle and pull downwards following the line/run of the zip.

2.

Maintaining your grip at the top of the drysuit, continue to pull the zipper down and around your body. Ensure the zip has been fully closed before use.

DO NOT pull the zipper away from your body.
DO NOT pull the zipper at an oblique angle to the zip run
DO NOT use excessive force.
