ATACAMA MILITARY DRYSUIT

Optimises Mobility in Hostile Environments

Reduce mission fatigue with the tough, breathable and lightweight **Atacama**. Ergonomically designed with a stretch mesh back and articulated arms and legs for a customised fit, ensuring comfort and unsurpassed manoeuvrability when deploying on mission critical tasks.

BENEFITS:

- ✓ Reinforced patches – on knees and seat for comfort and longevity
- ✓ Ergonomic Design – for optimum manoeuvrability and elastic waistband for improved fit
- ✓ Lightweight material – for user comfort during long periods, limiting heat stress and operator fatigue
- ✓ Neoprene neck seal – ensures comfort during sustained use
- ✓ YKK Zipper – convenient front entry zip and separate relief zipper
- ✓ Pockets – discrete but expandable leg and arm pockets for waterproof storage
- ✓ Protective Cuffs – on ankles and wrists for added protection and comfort

“ A significant advancement in military drysuit protection and comfort ”

TRUSTED TO
PROTECT LIVES
