

Servicing / Technical bulletin number: 091

Issued to: All Service Network (Approved sites)

Date Issued: July 2025

- **Subject:** discontinued of spare part (part number 10012 / 10061 Blue capsule)

Issued by: Guy Page (Technical)

Exp date: open

Crewsaver are discontinuing the supply of the UML Blue capsule and all rearming kits containing it.

The blue capsule supports the Crewsaver (UML) operating Head (Yellow or Navy Blue)

We stopped the manufacture of these heads around 2005 and have supported the service life for over 20 years.

Jacket fitted with these heads will on average be now 20 years plus old and we advise these are changed.

There are two options.

1. Jackets will now need to be replaced (due to age and containing un-serviceable parts)
2. Jacket could be upgrade using the (D-post) UML MK5 head with black capsule, but this will mainly be “not cost affective” on a 20 plus year jacket.
