MARINE LIGHTS

PROUDLY OBSESSIVE ABOUT YOUR SAFETY AND SURVIVAL

For absolute protection and performance, you need the very best equipment you can rely on to ensure your safety is taken care of. The Exposure Light and OLAS ranges combined with Crewsaver's unique collection of personal lifesaving appliances create the most extensive safety offering available.

PROVIDING CRITICAL SAFETY SOLUTIONS

Survitec is recognised as the most comprehensive global total solutions provider for mission critical safety and survival equipment. With a history dating back over 160 years, Survitec commands market-leading positions worldwide in marine, offshore, defence & aviation survival technology.

As innovators with a passion for developing new products and services to meet the changing demands of our customers, we pride ourselves on delivering great service.

Although our business interests span many countries and markets, our people share a common mission... your safety.

As part of Survitec, the Crewsaver team are experts at discretely combining safety with practicality and style.

ABOUT EXPOSURE LIGHTS

Designed for high performance, Exposure Lights combines the latest advantages of LED technology with powerful Lithium-ion rechargeable batteries, creating very lightweight, highly compact torches with unrivalled power, functionality and versatility for their size. This includes the ability to combine high power search light options (visible up to 3 nautical miles), with red beam, and a variety of safety features in a very small, lightweight and buoyant casing.

Exposure Lights are the Technical Lighting supplier to Dongfeng Race Team and Turn the Tide on Plastic in the Volvo Ocean Race 2017/18. They were the Official Supplier to Abu Dhabi Ocean Racing, overall winners of the Volvo Ocean Race 2014/15, and work with a variety of sailors and teams including Alex Thomson Racing.

Exposure Lights, are also renowned in the cycle market as the leading global brand of premium performance bike lights. Specifically, for the marine market, Exposure use marine grade anodising on lightweight aluminium casing to ensure durability against the elements, whilst maintaining high strength. Combined with functional brackets and accessories the Exposure marine range is a new generation of multi-utility rechargeable torches, making life afloat safer, easier and brighter.

ENVIRONMENT

Non-rechargeable batteries require up to 500% more electricity to produce than they can release, the CO₂ emissions saved through using rechargeable batteries are huge

RUNNING COST

You can save up to 98% on running costs using rechargeable batteries, when comparing the cost of charging a battery with purchasing a new set

PRODUCT CATEGORIES

WORK LIGHT

20 - 30-degree beam angle to illuminate wide areas.

SEARCH LIGHT

15 - 20-degree beam angle to illuminate large areas whilst searching.

SPOT LIGHT

Concentrated beam angle less than 9° for maximum beam distance.

OPTIMISED NIGHT VISION (ONV) RED AND WHITE

Instant access to red light to preserve night vision.

STROBE

High power strobe visible for over 3 nautical miles at night.

E-FLARE

High power red strobe light, designed to simulate a distress flare.

PRODUCT USE

HEAD TORCH

Designed to fit comfortably with minimal weight on the forehead.

POCKET TORCH

Designed to fit in a pocket, weighing less than 50 grams.

HAND TORCH

Designed to fit in the palm of your hand, weighing between 50-250 grams.

TECHNOLOGIES

MOB TECH

Patent pending water activated strobe technology - designed to prevent false activation.

OLAS

Bluetooth compatibility with OLAS mobile application.

FLOAT

Precision engineering to ensure the light floats beam upright.

FUEL GAUGE

Traffic light battery level feedback (Green, Orange, Red, Red Flashing).

USB

Universal charging capability via USB ports.

SPOT ME STROBE

A compact waterproof strobe for sailors, paddlers, surfers and outdoor adventures. The unique 'click' single hand operation ensures simple operation when in distress.

OUTPUT	WEIGHT	BURNTIME	DEPTH RATING
250 Lumens White	35 g	5 hrs	1 metre

SPOT ME-R STROBE

A compact waterproof red strobe for sailors, paddlers, surfers and outdoor adventures. The unique 'click' single hand operation ensures simple operation when in distress.

OUTPUT	WEIGHT	BURNTIME	DEPTH RATING
120 Lumens White	36 g	5 hrs	1 metre

"The Raw PRO is light weight, bright and easy to use making it perfect for sailors."

Alan Roberts, Figaro Sailor

RED & WHITE

RAW PRO

A compact, lightweight headtorch with single click access to red or white outputs. 'This really is the perfect headtorch for sailors' Bruce Jacobs – 5 stars, Yachting World.

★★★★★
Yachting World June 2017

OUTPUT	WEIGHT	BURNTIME	DEPTH RATING
200 Lumens White 100 Lumens Red	43 g	1 - 25 hrs	5 metres

RAW XS

A compact, lightweight pocket torch with single click access to red or white outputs. Compatible with Exposure helmet brackets for side mounting (available separately).

OUTPUT	WEIGHT	BURNTIME	DEPTH RATING
200 Lumens White 100 Lumens Red	45 g	1 - 25 hrs	5 metres

SEARCH & RESCUE

ACTION 9 SEARCH

Designed for maximum spotting ability to aid in search and rescue, or to act as a vessel's portable spot light.

OUTPUT	WEIGHT	BURNTIME	DEPTH RATING
1000 Lumens White	263 g	4 - 16 hrs	100 metres

FLOATING LIGHTS

MOB CARBON

A waterproof, floating search light with integrated water activated strobe (MOB Tech). Carbon and aluminum construction for maximum strength but minimum weight.

OUTPUT	WEIGHT	BURNTIME	DEPTH RATING
1000 Lumens White	95 g	1.5 - 6 hrs	5 metres

FLOAT-ON

A waterproof, floating pocket torch with integrated water activated strobe (MOB Tech). A multi-functional safety aid for both novice and experienced boaters.

OUTPUT	WEIGHT	BURNTIME	DEPTH RATING
160 Lumens White	45 g	1.5 - 12 hrs	1 metres

OVERBOARD LOCATION
ALERT SYSTEM

ABOUT OLAS

The OLAS Tag and Mobile Application

The OLAS system uses Alert and Find technology to create a portable crew tracking and overboard location alert system.

In a MOB situation OLAS will sound an alarm and record the latitude and longitude of the incident using the phone or tablet GPS.

In the event that the skipper or a crew member has gone overboard OLAS helps direct the remaining crew on a successful MOB recovery and communication with emergency services.

Use OLAS to:

1. Ensure all crew members are present.
2. Significantly increase the chance of self-rescue in a Man Overboard emergency.
3. Clearly and concisely transfer relevant information to the coast guard.
4. Monitor live navigation data whilst cruising or racing.

OLAS Products pair with your device to create a virtual tether between your phone/tablet/mobile device and crew members, children, pets or objects, such as a lifebuoy.

OLAS TAG

ADVANTAGES

- The longest battery life - 4 months.
- The most versatile attachment solution - Watch, life jacket, MOB device with 1 strap.
- Cost effective crew tag and portable man overboard alarm.
- Additional navigation features including SOG, COG, bearing to waypoint, course to steer and a compass.
- Connect upto 6 tags to 1 phone or tablet.
- Connect 1 tag to multiple phones / tablets.
- Low battery alert.

NOW AVAILABLE AS A FULLY INTEGRABLE OPTION INTO THE ERGOFIT+ CREWSAVER LIFEJACKET - TAKING MAN OVERBOARD PROTECTION TO THE NEXT LEVEL.

SPECIFICATION

Weight Without Strap	20 grams
Dimensions	60 x 35 x 15mm
Battery Life	4 months
Battery	CR2477 - replaceable
Range	0-50ft vessel

FLOAT-ON

THE OLAS FLOAT-ON

Combines a MOB alarm, water activated strobe and pocket torch into a cost effective, compact device.

WHAT IS THE OLAS FLOAT-ON?

The OLAS Float-On is a waterproof, floating pocket torch which uniquely integrates Exposure's MOB technology and OLAS man overboard alert functionality.

- An intuitive, multi-functional safety aid for both novice and experienced boaters.
- An early alert system in the event of a MOB, allowing the optimum chance of self-rescue.
- Offers confidence for less experienced crew and skippers, clearly directing remaining crew through the correct MOB procedure via the OLAS mobile application.
- A portable system that can be taken from vessel to vessel without costly installation.

OUTPUT	WEIGHT	BURNTIME	DEPTH RATING
160 Lumens White	45 g	1.5 - 12 hrs	1 metre
