

Crewsaver®

WHY CHOOSE CREWSAVER

CHILDREN'S LIFEJACKETS

The Crewsaver children's lifejacket range has something to offer no matter what your activity. So whether you need something for general in-water play, kayaking or even ocean sailing, there is a Crewsaver lifejacket designed to keep your loved ones safe.

EXPERIENCE

- With over 60 years' experience we are recognised as one of the foremost suppliers of lifejackets and marine safety equipment in the world.
- Our expert designers work closely with the most experienced lifeboat crews including the Royal National Lifeboat Institution (RNLI) and elite ocean racers. We feed these innovations directly into each of our lifejacket ranges to ensure that whatever your reason for being afloat, your safety is never compromised

SAFETY

- Our lifejackets are rigorously tested and retested to exceed all safety standards
- All materials and fabrics are carefully selected to bring the best and most appropriate material for each product

DESIGN

- Our children's lifejacket range is uniquely designed to accommodate a child's shape and weight distribution to increase the distance between their airway and the waterline (known as mouth freeboard).
- Fantastic range of features to choose from to accommodate the individual's requirements
- Many of our lifejackets - such as the Euro and Supersafe - include fun cartoon designs complete with Oliver's Adventure storybook to teach your loved ones the importance of wearing a lifejacket

TOP TIP: WHEN ENCOURAGING YOUR CHILD TO WEAR A LIFEJACKET REMEMBER, IT'S EASIER TO DO SO IF THEY SEE THAT YOU'RE ALSO WEARING ONE.

THE ONLY COMPLETE CHILDREN'S LIFEJACKET RANGE

TYPES OF CHILDREN'S LIFEJACKETS

OCEAN SAILING

100N FOAM LIFEJACKET

A 100N foam lifejacket, such as the Euro 100N, is inherently buoyant and is perfect for inshore watersport use and general in-water activities.

150N FOAM LIFEJACKET

For those venturing further offshore, you should consider a 150N option - such as the Supersafe 150N. We are one of the only brands to offer a children's lifejacket in the offshore category which results in quicker spin times, greater mouth freeboard and increased collar stability.

150N GAS LIFEJACKET

A gas lifejacket, such as the Crewfit 150N Junior, is a great option for older children and designed to inflate automatically on contact with water. All components inside the Crewfit 150N Junior have been carefully selected and positioned to provide a compact solution to ensure optimum fit for your ever growing junior.

FEATURES TO LOOK FOR IN A LIFEJACKET

All our children's lifejackets come with crotch straps and an adjustable waist belt to prevent the lifejacket from riding up when in the water. The whistle, brightly coloured designs and reflective tape are aimed to attract attention and aid visibility when in the water.

ADDITIONAL FEATURES TO LOOK FOR

- Lifejacket light
- Safety harness point
- Lifting becket

TOP TIP: WHEN FITTING A CHILD'S LIFEJACKET, ENSURE THAT ALL ADJUSTMENTS ARE SECURED AND THE FIT IS COMFORTABLY TIGHT. UNFORTUNATELY LIFEJACKETS ARE NOT SOMETHING YOU CAN WEAR TO GROW INTO!
